Henry Tan

Software Engineer

(347) 653-2393 New York, NY htan0705@gmail.com **PORTFOLIO** **GITHUB** **LINKEDIN** **WELLFOUND**

EDUCATION

Bachelor's Degree in Computer Science - *Baruch College* Expected Graduation: Dec 2026

Web Development - *App Academy* 2019

CERTIFICATIONS

- **Certified Information Systems Auditor** (**CISA**) — Exam Candidate (ISACA, Planned 2026)

EXPERIENCE

nooon

Software Engineer *(React, Next.js, TypeScript, Supabase, TailwindCSS, Prisma)* Oct 2025 - Present

- Leading the development of a **multi-channel communication system** to replace third-party dependency and **optimize infrastructure costs**.
- Systematically reviewed and resolved critical bugs within administrative and client dashboards, improving system reliability and **operational transparency** for internal stakeholders.
- Architect **privileged access controls** and administrative workflows for hotel/booking management, ensuring data integrity and preventing unauthorized deletions.

Black Spectacles

Software Engineer *(React, TypeScript, Node.js, Material UI, HubSpot, MySQL)* May 2022 - July 2024

- Led **migration from Expression Engine/PHP** to **React/TypeScript**, reducing **page load times by 40%** and increasing **developer efficiency by 30%** with improved frontend architecture.
- Developed a secure self-serve checkout portal with real-time validation and payment integration, reducing transaction errors by 20% and ensuring **secure financial data handling**.

Stealth Startup (Digital Health and AI Industry)

Software Engineer *(Chrome Extensions, React, JavaScript, Node.js, Material UI, Python, Flask)* Dec 2020 - May 2022

- Led the development of the company's **flagship AI-driven Chrome extension**, transitioning from **prototype to beta launch**, resulting in **1,000+ installs** and a **4.9/5 rating** on the Chrome Web Store by delivering a responsive **React/Material-UI** interface.
- Optimized application performance and data persistence using **Chrome Storage API**, reducing **server-side load** by 60% and improving system efficiency.

PROJECTS

Issue Tracker (*React, Next.js, Prisma, RadixUI, Tailwind CSS, and MySQL*) live | github

An issue tracking dashboard that displays real-time summaries, interactive charts, and a feed of recent activity.

- Engineered a secure **Identity and Access Management (IAM)** system using NextAuth to enforce Role-Based Access Controls (RBAC) for data modification.
- Implemented dynamic, **URL-parameter-based** issue filtering using **Prisma queries** to ensure **accurate data retrieval** and persistent, shareable audit views.

SKILLS

LANGUAGES: *JavaScript | TypeScript | SQL | HTML5 | CSS3*

TECHNOLOGIES: *React| Redux | Next.js | Node | Express | TailwindCSS | Prisma| HubSpot | Git | AWS | Chrome Extensions*
